Online Show Guidelines

Please take all guidelines into consideration when preparing your video test submission.

1. **Use arenas that are as close to regulation size as possible** and be sure letters are set appropriately to be **easily viewed** by the judge. Cones with large letters on them and poles on the ground to delineate the corners are acceptable and encouraged. For arena measurements, please visit this link,

<https://westerndressageassociation.org/western-dressage-arena/>

- a. Intro and Basic must use a 20 x 40-meter arena
- b. Level 1 through Level 4 must use a 20 x 60-meter arena
- c. All Freestyles are in a 20 x 60-meter arena

2. **Videos of tests must be unedited from start to finish**, including the equipment, attire, and bit check. They must be always one continuous recording with the horse and rider visible.

3. Videos must be filmed in **LANDSCAPE** orientation.

4. **The test must be videoed from behind C**, 3 to 6 feet from the rail, where the judge would normally be seated. Try adding a little height by standing on a mounting block, for example.

5. Prior to beginning the test, the **PREFILLED CLASS INFORMATION SIGN (including the DATE filmed) must be videoed for at least 5 seconds**. Remove the sign just before the ride begins. The videographer can hold the sign then move back to behind the camera or hold the sign in front of the camera at arm's length while also holding the camera.

6. **Keep the horse in frame**, paying close attention to the near corners. You may zoom in on the far end and corners. Videos must be in focus. Keep the camera centered on the horse on the centerlines.

**** SEE ADDITIONAL ZOOMING INFORMATION BELOW****

7. **Make sure to keep the letters in the frame** that are elements of the test being performed. Keep the horse in the LAST one third of the viewing screen in Landscape view (2/3 of the viewscreen in front of moving horse). This will allow the "judge" to see approximately two letters in front of the horse which is necessary for depth perception and line evaluation. In general, keep the horse's feet in the bottom 1/3 of the viewfinder.

8. As soon as the test is finished, the camera must **slowly circle the horse and rider showing all equipment and attire**, including spurs and whip if used. If the videographer is unable to enter the arena, at G the rider may turn the horse slowly, wait five seconds, then turn slowly to show the second side, and wait an additional 5 seconds to complete filming of the equipment.

9. Following equipment check, the rider will dismount and show that two fingers can fit between the bosal or cavesson and the horse's cheek, then drop the bit so it can be evaluated and clearly seen by the steward. Hold the bridle so as not to obscure the curb strap or curb chain. Demonstrate that the curb strap or chain is flexible and is at least ½ inch wide. **Make sure the steward and judge can see all parts of the bridle, including bit and reins clearly.**

10. Coaching during the test is not allowed EXCEPT for WDAA Exceptional Rider tests

11. **The natural background sound for the test must be audible.** Tests with no sound at all will not be accepted. Freestyles must have music in the background but not digitally added to the video itself. The test may be called.

12. The video may not be a ride from a previous show.

PLEASE NOTE – Show Management will review all submissions to ensure adherence to the guidelines as stated above. If a test is submitted that does not comply with these guidelines, Show Management will contact the exhibitor immediately via email or phone. The exhibitor must submit a replacement video no later than (Need Date). Those that submit videos near the closing date of Phase 2 and are told they must make a new video will have until noon (Need Date) to submit a replacement.

****** ADDITIONAL ZOOMING INFORMATION ******

- Zoom is necessary.
- On a camera or iPhone/Droid (most have a capability of 10X) for the 20x60 ring zoom for the far end of the ring is generally 3.5 to 4 (horse to take up 1/3 of the view finder and must not exceed ½).
- Try to zoom only once on a movement (although it may be necessary to also reduce zoom in the same movement).
- For the small ring 20x40 zoom for the upper half of the ring generally tends to be 2 or 2.5.
- Reduce Zoom back to 1x as the horse comes past X towards / near the "C" end. You will naturally have a moment of two where the horse passes directly in front of / and near the camera.
- It is not always a whole horse view but keep the camera moving with the horse.
- If the horse is required to perform a movement directly at "C", be sure to move the camera so the viewer sees the feet/steps and head/neck connection throughout the movement.
- This simulates what a judge sees when a horse is so close.
